## About me

I'm a WordPress developer with a higher degrees in English. I use my problem-solving skills and attention to detail to create fast, user-friendly websites. My experience includes building custom designs, fixing technical issues, and making sure websites look great on all devices. I'm a quick learner and hard worker, always staying updated with the latest tools to deliver secure, search engine-friendly results. With my mix of creativity and logic, I turn ideas into websites that help businesses grow.

## Experience

### Web Design

Sorobindu Institute

- Trained in modern web design principles, including HTML, CSS, and WordPress, to build responsive, user-friendly websites.
- Developed custom themes and optimized site performance for speed, accessibility, and SEO during hands-on projects.
- Collaborated on client-focused projects, translating design mockups into functional websites that improved user engagement.

### Web Development

Sorobindu Institute (Website Development & Design)

- Learned full-stack web development skills, including HTML, CSS, JavaScript, PHP, and WordPress, to build dynamic, functional websites.
- Created responsive websites from scratch, focusing on clean code, speed optimization, and mobile-friendly design.
- Worked on real projects to integrate databases, troubleshoot errors, and fix bugs for seamless user experiences.
